USER EXPERIENCE DESIGN INTERN | UpGlocal

Jan 2025 – Jun 2025 | Remote | Gurugram, Haryana

- Contributed to Propease and Airship Send by creating wireframes, user interfaces, and interactive Figma prototypes.
- Used user conversations and journey mapping to identify friction points and simplify important user tasks.
- Built reusable components and supported developer handoff to maintain consistency across screens.

SELECTED PROJECTS

PROPEASE | Real Estate Platform

- Designed 40+ responsive screens for property listings, search, agent dashboards, and bookings.
- Used user conversations and journey mapping to address three friction points, reducing core task steps by 30%.
- Created reusable Figma components and shared design tokens, reducing handoff time by 25%.
- Reviewed contrast, spacing, and visual hierarchy against WCAG 2.1 accessibility considerations.

AIRSHIP SEND | Delivery Platform

- Reworked navigation across 30+ screens, including a driver app and dispatcher dashboard.
- Improved access to key tasks for one-handed use and used high contrast for drivers on the go.
- Collaborated with developers and product managers through six weeks of Agile sprints, with no design rework.
- Helped build a shared Figma design system that made later iterations 40% faster.
